- Fixed or adjustable light output application
- 4.00" square die-cast aluminum
- 3.00" square large aperture
- .75" bevel regress
- Trimless insert
- Ball catch retainer for easy trim insertion and removal
- Safety cable included
- Powder coat finish

ValuDIM™

LF Illumination's new **ValuDIM™** warm dimming allows the features of warm dimming technology to be installed in fixtures and price points once thought impossible. The small footprint LED COB design uses many of our standard subassembly components and is compatible with virtually all standard dimming protocols currently available.

The LED itself maintains 95CRI typ (92CRI min) across the usable CCT range of 3000K to 1800K and dims down to around 2% visible light output.

5 YEAR WARRANTY
