### ENGINEERED FOR VERSATILITY AND PERFORMANCE

The Elite LED Slim Surface Mount has been engineered to install into most standard junction boxes. Up to 1200 usable lumens are directed from the luminaire to the work surface. Lighting is smooth and comfortable, all while using 75% less energy than the equivalent Incandescent. Features 50,000 hours of life, and California Title-24 compliance.

### OPTICS

The Elite LED Module system is much more than just a simple LED retrofit. The Elite LED system is a highly engineered work of design and optical science which produces up to 1200 lumens. Our meticulously crafted optics gather the light scattered by the LED chip and shape it into a functional beam with uniform light distribution.

### DIMMING

Intended for Triac (120V) base on configuration. Minimum 90° supply conductors.

### COMPLIANCE

Non-conductive fixture for shower light application. Product complies with the requirements of the California Energy Commission regulated under Title 24.

### LISTING

ETL listed for damp location (wet location - with covered ceilings)  
Energy Star certified

### WARRANTY

The Elite LED lighting system carries a five-year carefree warranty for parts and components. (Labor not included)

### INSTALLATION

You MUST seal all gaps between the ceiling and fixture with weatherproof silicone sealant. This deters moisture and water from damaging fixtures and other mechanical ceiling elements.
