

FEATURES & SPECIFICATIONS

INTENDED USE — Companion Downlight designed to match the LED Wireless Speaker Downlight provides an easy and efficient way to light up a room, and enjoy music for the entire family. Retrofit into most standard 6" recessed housings or new construction and remodel applications. Ships with grill faceplate and alternate smooth faceplate.

CONSTRUCTION — Aluminum die cast trim with polycarbonate housing. Round fixture with integral

PATENT PENDING

OPTICS — Diffused lens surrounding faceplate provides even light distribution for general illumination. The LED module maintains at least 70% light output for 35,000 hours.

Wide flood beam angle at $>45^{\circ}$.

ELECTRICAL — High-efficiency driver mounted on the module. Primary power disconnect provided for simple connection to a dedicated LED connector in the housing or E26 ¹ adapter provided. Accommodates 120 volts DC at 60Hz.

Dimming down to 10% with most standard incandescent, magnetic low voltage and electronic low voltage dimmers. For compatible dimmers, see page 4 for recommended triac dimmers.

INSTALLATION — Suitable for installation in standard rough-in sections.

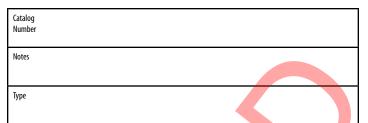

E26 socket adapter ships standard, except in the State of California 1.

Twin torsion springs ensure easy installation for 6" recessed housings. Tested to fit in a minimum enclosure of 6" diameter by 6" height, with a maximum flange diameter of 7.5" For examples of compatible housings

LISTINGS — ETL certified to US and Canadian safety standards. Wet location listed. WSEC ASTM E283 for Air-Tight (with IC housings).

WARRANTY — 3-year limited warranty for LED's and Driver. Complete warranty terms located at: www.acuitybrands.com/CustomerResources/Terms_and_conditions.aspx

Note: Actual performance may differ as a result of end-user environment and application. All values are design or typical values, measured under laboratory conditions at 25 °C. Specifications subject to change without notice.
